

SERVICES

Manufacturing Solutions Tailored to Your Business

Contract Manufacturing

End-to-end production using your specifications.

Private Label Manufacturing

Complete manufacturing and packing under your brand.

Contract Grinding

Grinding services with customized particle size requirements.

Custom Blending

Recipe-based spice blends developed to customer needs.

Steam Sterilization

Microbial reduction through controlled steam processing.*

Cryogenic Grinding

Premium low-temperature grinding for sensitive spices.

Product Development

Support for developing and optimizing formulations.

Export Packing

Packaging solutions designed for international markets.

*As per customer requirement.

INDUSTRIES WE SERVE

Serving Diverse Food Industries

Our flexible manufacturing capability supports customers across multiple industries.

Spice Brands

Ready-to-Eat Manufacturers

Food Manufacturers

Seasoning Companies

Private Label Companies

QSR & Food Service

Exporters

Hotels & Catering

Ready-to-Cook Manufacturers

Institutional Buyers

WHY CHOOSE FLAVOUR FRENZY

- ✓ Integrated Processing Facility
- ✓ Advanced Manufacturing Technology
- ✓ Customized Processing Solutions
- ✓ Flexible Production Capacity
- ✓ Buyer-Specific Manufacturing
- ✓ Consistent Batch Quality
- ✓ Export-Ready Operations
- ✓ Dedicated Customer Support

YOUR MANUFACTURING PARTNER

From Concept to Commercial Production

Whether you require contract manufacturing, private label production or customized spice processing, Flavour Frenzy offers integrated solutions designed to support your business at every stage.

CONCEPT

Your Idea
Our Expertise

PROCESSING

Advanced Technology.
Consistent Quality

PRODUCTION

Reliable Manufacturing.
Scalable Solutions

DELIVERY

On Time. Every Time.
Everywhere.

Fingerprint-Secured
Recipe Control

In-house Laboratory

OUR PROCESSING FLOW

WHY IT MATTERS

Integrated Processing from Raw Material to Dispatch

Minimal Manual Handling for Enhanced Product Integrity

Controlled Process for Consistent Batch-to-Batch Quality

End-to-End Batch Traceability

Manufactured to Customer Specifications

TECHNOLOGY HIGHLIGHTS:

- 

PLC Controlled Automation
Automated process control for repeatable production.
- 

Steam Sterilization with SCADA Monitoring
SCADA-monitored steam sterilization process for controlled microbial reduction while maintaining product quality.*
- 

Cryogenic Grinding
Low-temperature grinding to help preserve natural aroma, colour and volatile oils.
- 

Recipe-Controlled Dosing
Automated, fingerprint-secured recipe management ensures precise ingredient dosing, consistent batch quality and complete confidentiality of customer formulations.
- 

Multi-stage Cleaning
Efficient removal of foreign matter before processing.
- 

Metal Detection
Final product safety verification before packing.
- 

Batch Traceability
Complete traceability from raw material to finished product.

MANUFACTURING CAPABILITY

- Built to Scale**
Designed to support both growing brands and high-volume industrial requirements.
- Capacity & Infrastructure**
- ✓ 40,000 sq.ft Purpose-Built Facility
 - ✓ 780 MT/Month Production Capacity
 - ✓ 3 Independent Processing Lines
 - ✓ 5 Acre Manufacturing Campus
 - ✓ Dedicated Processing & Packing Areas
 - ✓ Temperature-Controlled Cold Room
 - ✓ Bulk & Retail Packing Capability
 - ✓ Export Connectivity via Tuticorin, Chennai & Vizhinjam Ports
- Designed Around Customer Requirements**
- ✓ Custom Mesh Sizes
 - ✓ Product-Specific Grinding Profiles
 - ✓ Buyer-Specific Formulations
 - ✓ Flexible Packaging Formats
 - ✓ Private Label Manufacturing
 - ✓ Export-Oriented Production
 - ✓ End-to-End Batch Traceability

PRODUCT PORTFOLIO

A Comprehensive Range of Spice Solutions

We manufacture a wide range of spice ingredients and value-added products tailored to customer specifications across domestic and international markets.

Whole Spices

Ground Spices

Blended Masalas & Seasonings

Special Cuts & Granulations

Customisation Options

Every product can be customised to meet your application and market requirements.

- ✓ Custom Mesh Sizes
 - ✓ Product Formulations
- ✓ Colour & Pungency Profiles
 - ✓ Buyer-Specific Specifications
- ✓ Packaging Formats

(Detailed specifications available in our Technical Product Specification Manual.)

Technology That Delivers Consistency Advanced Processing Technology

A modern, integrated spice processing facility delivering customized solutions for food manufacturers, private labels and global buyers.
